

Wee Swim

We'll have your kids swimming like fish in no time!

Wee Swim is a parent/child swim class that parents interact with their child in the water. This program will introduce your child to the water in a fun environment taught by our pool staff. This program will provide children and parents with water safety training, aquatic adjustment and swimming readiness skills, and socialization of your little ones. This program is not a "drown-proof" program, but rather a water play class to familiarize your child with the water. Please join us for some songs, games, training and fun in the water.
